Subject: Creteseal Reference Letter – Cerami Construction Company, Ltd

To Whom it May Concern,

Please use this letter as a reference for “Cerami Construction Company” due to their experience as a qualified Creteseal CS2000 Spray Apply System installer.

Cerami Construction Company, Ltd has previously installed approximately 19,000 square feet successfully at the York Street Medical Office Building in Elmhurst Illinois. This was accomplished within two separate phases and overseen by an onsite Creteseal technician. The Cerami Construction Company has made it obvious to Creteseal that they can deliver a quality crew with professionalism as well as displaying excellent communication with us.

Creteseal cannot install our system outside of California and therefore embrace such dependability from companies such as Cerami Construction. I hope that if any build team is looking for a complete company that can deliver quality work they would consider the Cerami Construction Company.

Sincerely,

Daniel Ferguson
Creteseal Sr. Project Manager
